About Us

Our mission is to provide holistic education that integrates academic excellence, values, and innovation. We strive to nurture critical thinking, character development, and lifelong learning, empowering students to excel in their endeavors and contribute meaningfully to society as compassionate, responsible, and globally aware citizens.

Our Philosophy

At Little Alpha, our ultimate aim is to ignite critical thinking. We strictly do not promote rote learning—inquiry-based learning is the backbone of our methodology. We want every learner to think, explore, and learn.

At Little Alpha, the child is at the center of everything we do. Holistic development is our priority, achieved through the application of 21st-century skills—because our learners are none other than Alphas!

Our Curriculum

Inquiry Based learning

It ignites learner to ask questions helps them to be active and stay tuned in the class.

COLLABRATIVE SPACES

At Little Alpha, learning is a journey of collaboration. Here, every learner actively engages, works together, and discovers the joy of learning through teamwork and meaningful interactions—because, at Little Alpha, learning is different!

Experiential Learning

At Little Alpha, we believe in learning by doing, ensuring our students build a strong foundation for life.

Our Facilities

Age-appropriate Montessori educational toys

Multifarious Sports & Co-Curricular Facilities.

Only school to work upon motor skills.

Play-based learning for engaging early literacy and numeracy in children.

Focus on children's holistic development, alongside a fine blend of academic rigor.
